

K-LOVE is the only radio station my family listens to. In this age of terrorism, drinking, drugs, and destructive behavior, K-LOVE is the only POSITIVE media out there. I believe it is in the public's best interest to have at least 1 positive influence, particularly for my teenagers who are bombarded by so many negatives. Please keep the K-LOVE signal stronger than ever so I can teach the morals and values that are so important to my family but also important for a society in teaching tomorrow's leaders so that our communities do not fall prey to drug pushers and other scum out there!!!
